Technical Skills

- Angular
- React
- TypeScript
- JavaScript
- HTML5
- CSS3, SASS
- Node.js
- SQL, NoSQL
- RESTFUL APIs
- Version Control (Git, SVN)
- Web security
- Node.js
- Express.js
- DSA
- Tailwind CSS
- Software Design

Areas of Exposure

- Front-end Development
- Software Development
- Web security
- CI/CD
- Responsive Web design
- Web performance Optimization
- Object Oriented Programming
- Cloud services

Soft Skills

- Innovation
- Project Management
- Communication
- Leadership
- Teamwork

Education

- **Bachelor of Engineering,**
Computer Science,
Savitribai Phule Pune University, 2021
Sinhgad institutes, SKN
First Class with Distinction
- **Diploma,**
Information Technology,
Government Polytechnic Jalgaon, 2018
First Class with Distinction

Personal Details

- **Date of Birth:** 13th January 1999
- **Languages Known:** English, Hindi, Marathi
- **Address:** Pune, Maharashtra

Narendra Vanjari

Expert in Frontend Development | Results-Driven Full Stack Developer

Profile Summary

- Specialized in Front-end Development with expertise in **Angular 2+, React.js, TypeScript, JavaScript, HTML and CSS with 2+ years of Experience.**
- Proficient in client interactions, understanding workflows, and delivering tailored solutions
- Recipient of the prestigious "**Kudos Award-2022**" from FIS Global Solutions Private Limited.
- Consistently ranked as one of the **top performers in my team.**
- Strong analytical and decision-making skills, coupled with outstanding interpersonal abilities
- Proactive, quick learner, and adaptive problem-solver, dedicated to achieving excellence.

Work Experience

Since July 2021 to Present | FIS Global Solutions Private Limited

July 2022 to Present: Software Engineer 1 - Full Stack Developer

Key Result Areas:

- Spearheaded frontend development for **post-implementation support**, application maintenance, and enhancements, driving an exceptional user experience.
- Designed and implemented **30+ feature-rich, client-facing components**, resulting in a remarkable 30% increase in user engagement, potentially contributing to a revenue increase of \$50+ million. Leveraged Angular framework, JavaScript, TypeScript, HTML5, and CSS3.
- Collaborated on the creation and maintenance of 30+ REST APIs using Java Spring Boot.
- Led daily **CI/CD** deployment activities, following **agile Scrum** best practices.
- Utilized extensive frontend development experience to architect reusable project structures and components, enhancing project efficiency
- Maintained code quality through comprehensive code reviews and close collaboration with designers to ensure seamless translation of designs into functional features.
- Drove innovation in **CRM Software for Investment Bankers**, streamlining day-to-day operations into actionable relationship intelligence.

July 2021 to June 2022: IT Trainee

Key Contributions:

- Played a pivotal role in frontend development, creating 20+ feature-rich components to enhance user experiences using HTML, CSS, JavaScript, and Angular.
- Developed and maintained a set of **10+ REST APIs** using Java Spring Boot.
- Discovered and addressed previously unknown application flaws, resulting in a **notable 20% increase in performance.**
- Committed to Agile Scrum best practices and actively participated in CI/CD activities.

Projects:

ESG scoring system for client investment holdings:

- Pioneered the development of a user-friendly interface, presenting Environment, Social, and Governance (**ESG**) Scores for investments. The project resulted in annual savings of \$50+ million for the client, potentially contributing to increased profits.

Data Reporting Portal:

Designed, developed, and implemented frontend components, ensuring seamless data retrieval and generating various reports with user-defined parameters, potentially leading to cost savings.

Data Migration & ETL for Legacy Application Data:

- **Prevented 300+ hours of effort** by developing & implemented the Data Migration & ETL for legacy application data to new Application using SQL Server Integration Services
